ANDALUSIAN CITY
AND THE PROVINCE

POTENTIALITY
EXCEPTIONNELLES

The guest house belongs to this exceptional environment which welcomes Chefchaouen, the blue pearl of northern Morocco. Built at an altitude of 600 m at the foot of the Rif mountains, Chefchaouen is an Andalusian city that fascinates travelers. Thanks to social networks, Chefchaouen has become essential for international tourists. It is one of the most Instagrammable cities in the world.

In total, more than 620,000 posts with the hashtag #Chefchaouen were published by visitors on Instagram. Its authentic medina with narrow streets is made up of charming blue and white houses, squares, cafes, restaurants and souvenir shops. It developed around a fortress protected by bastions and square towers. Its Kasbah, built in 1471, stands in the

center of Outa El Hammam square next to the great mosque. The main tower of the Kasbah has three floors with a large terrace at the top with a panoramic view of the city of Chefchaouen and the surrounding mountains. Its lush gardens, fountains and patios are a true haven of freshness in the heart of the city. The Kasbah ethnological museum, inaugurated in 1985, exhibits a

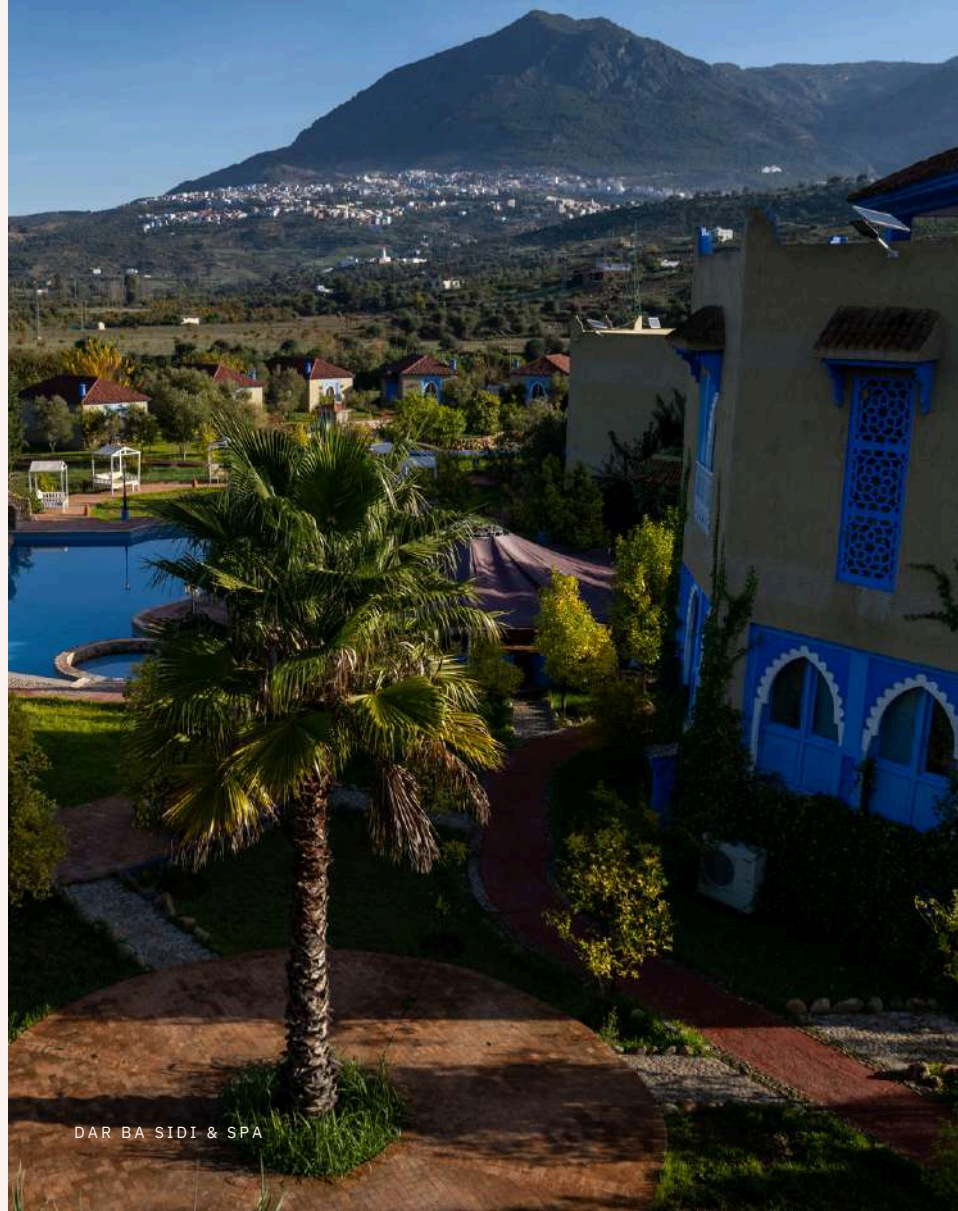

collection of Moroccan heritage objects such as musical instruments, pottery, sculptures, embroidery and ancient weapons used to defend the fortress. The hinterland is absolutely breathtaking.
